B.E. in Information Technology	Finolex Academy Of Management and Technology (Mumbai university)	60.62%	2018
H.S.C.	Alfraid Gadney Highschool,Dapoli	65.54%	2014
S.S.C.	Poojya Sane Guruji Vidya Mandir, Palgad(Ratnagiri)	89.45%	2012

Academic Projects:

Title	Online Food Plaza
Language	Java, HTML,CSS,JSP
Details	Online Food plaza is based on E-commerce model, where customer can order the food using web. UI for this system was built using HTML, css and jsp and for the back-end we used java and we used mysql as a database. The project was divided into three main pages admin, Customer and Guest. Further this pages were categorized into four main modules namely Food,order,Cart and Payment. Customer could edit or delete their orders.

Degree Final Year Project

Title	Biometric student's attendance system using raspberry pi based on image processing concept.
Language	Python
Details	Considering the current attendance system in colleges which is paper based is tedious to manage and also vulnerable to proxies, so to make it more secure and easy to maintain we designed the system based on biometric authentication. In this We used fingerprint for biometric recognition using image processing techniques. We built the system using raspberry pi 3, python and open CV platform.

Extra Certification & Curriculum:

Core java and advance java course completed in Coder Technologies Thane.

Project paper published on IJSART journal. (Biometric students attendance system using raspberry pi) - January 2018

Project paper published on IJRASET journal. - March 2018
