

PROJECTS

StocksApp **AttainU** **May 2019**
Stocksapp is a web application allowing users to add and delete NSE listed stocks in their portfolio and watchlist.
[Stocksapp](#) | [GitHub](#)

- Designed and built the homepage showcasing the latest stock market-related news through News API.
- Designed and implemented access to the company's NSE page from the virtual portfolio page.
- Eliminated user duplication by ensuring unique user authentication from their email id.
- Technologies used: Node.js, Express.js, MongoDB and multiple npm libraries as per the requirements.

ChartOwl **AttainU** **Jul 2019**
ChartOwl is a web application allowing users to upload a CSV file having data, generate a chart from that uploaded data, and download the generated chart as a pdf or a SVG, PNG, JPG image. [ChartOwl](#) | [GitHub](#)

- Created login functionality and profile page using Google Oauth login using Google client Id and npm React Google login library.
- Assisted in implementing the backend part for ChartOwl using the parse server to help users store their charts with the help of their unique Google Id as user Id.
- Technologies used: React, Redux, Highcharts charting library, Google OAuth, and Parse server.

LANGUAGES & TECHNOLOGIES

-
- MERN Stack - Javascript (ES5 & ES6), MongoDB, Express, React, NodeJS

WORK EXPERIENCE

Freelance **Hansa Research Group & Gallup India** **Aug 2015 - Oct 2018**
Conducted field interviews, telephonic interviews, Q¹² based engagement surveys (dealer & employee) in Western, Northern and Central Regions of India as per the requirements.

- Replaced a team of 2 freelancers in a Q¹² dealer engagement survey and completed 20 field interviews in 5 days instead of 10 days without compromising on quality hence ensuring timely survey completion.
- Conducted introductory training and supervision of freshly appointed freelancers in the Mumbai Metropolitan region ensuring timely and financially efficient service for the company.
- Prepared locally based freelancers in Delhi-NCR to independently manage future Q¹² based engagement surveys thereby enabling flexibility of and 45% cost reduction in field operations.

EDUCATION
